

Intent

Within our school each child is recognised as a unique individual within our caring community. Our curriculum is designed to be engaging, inspirational, creative and enjoyable. This enables our children to become independent, resilient and successful learners with high aspirations, able to explore, discover, dream and believe that they can be the best that they can be.

Our intent is that all children leave our school with a strong sense of belonging, equipped to value diversity and provided with the skills to embrace the world around them. Having had a broad, happy and positive experience whilst at the school.
